Web2Creative  
Attn: RT Radanovic  
1 Westridge Ct  
St. Louis, MO 63124

Dear RT:

Thank you so much for all of your time and dedication in creating PWA's new website. You are very talented! Please use the below as a testimonial:

*We interviewed three different design companies before selecting Web2Creative to design our organization's website. We chose RT because of his quality of work, pricing, and the functionality that the website could provide our members. Our site went from looking and functioning like a PowerPoint presentation to an interactive site that guides visitors to a specific action. RT went above and beyond in helping us create our site and truly understanding our goals. He was always patient with changes that needed to be made along the way and made them quickly. We were a very difficult client, but RT showed perseverance, persistence and most of all patience! I'm not sure anyone else could have gotten us to where we are today.*

*RT exceeded all of our expectations by consistently offering valuable advice and creative ideas. Without question he provided the highest quality of work, customer care, and a meticulous attention to detail. One of the most valuable tools that RT provided was tutorial videos that allow us to self-maintain the site.*

*We are extremely pleased with our new website in its overall appearance, professional look and ease of use. We feel we got a great value for our money and are extremely happy with the level of customer service, timeliness, and quality of work that we received. Feedback from our members has been very positive. I'm confident in recommending Web2Creative to anyone - from the small business owner to a large corporation.*

Sincerely,

Sheri Faulkenberg
